

## Doodle Page Digital Download

This PDF file contains 1 (one) Doodle Page. The PDF has been put together to give you options when it comes to printing. Pages and patterns that are larger than 8½x11 have been provided in two formats:

### 1) Full Size

If you would like to have a full size print out, take the full size pages to your local print shop and they can print it for you. All full size Doodle Pages are 11x17

### 2) Tiled

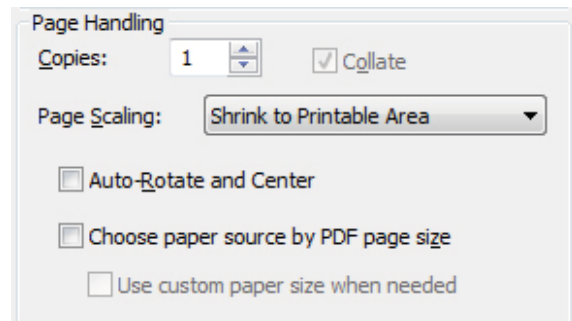

The tiled pages give you the option of printing the full sized Doodle Pages at home. You print the tiled pages and then assemble them to make the larger patterns.

The Doodle Page PDF files are typically laid out like this:

Front – full sized, front – tiled, back – full sized, back – tiled

(Some Doodle Pages do not have backs)

Please note: When printing on a home printer, the edges may get cut off. To avoid this, make sure “Page Scaling” is set to “Shrink to Printable Area” in the Adobe Reader print dialogue box. This will decrease the size of the Doodle Page a very small amount.

You may take this PDF file to your local print shop to have the full-size pages printed for your own personal use.

A REAL DOODLING LESSON

By Cliff Ketchum

As promised on last month's Doodle Page, Cliff Ketchum has come through with some real doodling. By using the same flower decorated eight different ways he has demonstrated many pleasing combinations of using the tools.

To many, the combination of using rope tools #956 and #959 with the veiners, as shown on the borders, will be something new, and a design that you might use to decorate a narrow belt or shoulder strap.

The student of designing will be interested in knowing that Cliff used a compass in laying out the stem line. First, two three and a quarter inch circles were faintly scratched in the leather (as shown by the compass point marks) then the stem line was extended in a flowing sweep between the two circles. Follow the flow line starting at flower (A) up through flower (B) and around to (G) and (H). Note the distance between the "line" and the borders. Then notice the location of the flowers, and last the way the scrolls and leaves were added to fill in the background area.

Study the different treatment Cliff has used in decorating the flowers. Then do the same with the three scrolls and the three large leaves. Choose the one you like best and try it on a piece of scrap leather.

Last, but not least, because we want to give you designs that are new and different, but more important the designs that you really like, please use the ballot printed on the back of this page. The winning flowers in this contest will then be added to the Craftaid line. So please vote!

Coming soon will be decorative cut templates to help you master the art of making decorative cuts. We are reproducing in plastic the decorative cuts of the master craftsmen. Watch for them at your dealers.

Doodle Page 8 will be released March 7, 1957.
