# Doodle Page Digital Download

This PDF file contains 1 (one) Doodle Page. The PDF has been put together to give you options when it comes to printing. Pages and patterns that are larger than 8½x11 have been provided in two formats:

1) **Full Size**

If you would like to have a full size print out, take the full size pages to your local print shop and they can print it for you. All full size Doodle Pages are 11x17

2) **Tiled**

The tiled pages give you the option of printing the full sized Doodle Pages at home. You print the tiled pages and then assemble them to make the larger patterns.

The Doodle Page PDF files are typically laid out like this:

Front – full sized, front – tiled, back – full sized, back – tiled

(Some Doodle Pages do not have backs)

Please note: When printing on a home printer, the edges may get cut off. To avoid this, make sure "Page Scaling" is set to "Shrink to Printable Area" in the Adobe Reader print dialogue box. This will decrease the size of the Doodle Page a very small amount.

You may take this PDF file to your local print shop to have the full-size pages printed for your own personal use.

Labels within the carving illustration:

TIMBER WOLF

899 900 711
MATT BACKGROUND

BEVEL BASE OF ICEBERGS WITH #711

898

976

USE #834 ON WOLF'S TAIL
834
707

NOTE HOW TOOL #707 IS SPACED TO SIMULATE SNOW COVERED BOUGHS ON THE PINE TREES.

COMPLETE TREES WITH KNIFE CUTS

POLAR BEAR

941 902

936 701 803

USE THESE BEVELERS TO GAIN ADDED DEPTH WHERE CHECKED BACKGROUND IS DESIRED. MATT WITH #698 - #899 - #900.

ALASKAN HUSKIES

CUT BORDER LINE WITH CRAFTOOL BLADE #100D

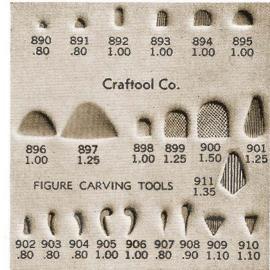

ALASKA

By Al Stohlman

With summer bearing down, we think of cooler places. Al Stohlman takes us a little farther north this month to—Alaska.

Craftool of the Month #891 is used extensively on the dogs, around their harness, and the sled detail; also between the prongs of the caribou's antlers and to bevel the Eskimo in his kayak. Most of the face contours and muscles of the dogs, wolf and bear are beveled with #891. Smooth out any rough beveling marks and add small facial details and expression with the Craftool #3 modeling tool. Add the "hair" to dogs and wolf with #431 or any similar Craftool camouflage tool. Bevel outlines of the dogs with #895 and #896. Matt background smoothly, to retain snow effect, with Craftool #897. Dog tracks are easily made with tip of undercut beveler #892.

The snow-covered pine tree in the left foreground is made with Craftool #910. Cut only the top line of the outer branches then bevel with #896. The remainder of the tree is formed entirely with #910, setting the points very closely together. The illusion of snow is created by blank areas between the branches.

The No. 100N angle blade is a "must" for craftsmen cutting the small figures, details of the harness, etc. The angle blade fits all Craftool knives. The No. 34 Swivel Cutter is ideal for small hands.
