

Doodle Page Digital Download

This PDF file contains 1 (one) Doodle Page. The PDF has been put together to give you options when it comes to printing. Pages and patterns that are larger than 8½x11 have been provided in two formats:

1) Full Size

If you would like to have a full size print out, take the full size pages to your local print shop and they can print it for you. All full size Doodle Pages are 11x17

2) Tiled

The tiled pages give you the option of printing the full sized Doodle Pages at home. You print the tiled pages and then assemble them to make the larger patterns.

The Doodle Page PDF files are typically laid out like this:

Front – full sized, front – tiled, back – full sized, back – tiled

(Some Doodle Pages do not have backs)

Please note: When printing on a home printer, the edges may get cut off. To avoid this, make sure “Page Scaling” is set to “Shrink to Printable Area” in the Adobe Reader print dialogue box. This will decrease the size of the Doodle Page a very small amount.

You may take this PDF file to your local print shop to have the full-size pages printed for your own personal use.

GOOD NEWS AND A WORD TO THE WISE

Yes indeed, a lot of good news for all leather craftsmen. For Al Stohlman, saddle maker and designer, offers the craft some inside information on figure carving. His new book, "How to Carve Leather" by Al Stohlman, is crammed full of both floral and figure carving. Also for the first time the secrets of dyeing are revealed. The A.B.C.'s of the "Dye Chart" Method, we believe, will open up a new and interesting field, as will his easy to follow instructions on figure carving.

HOW TO CARVE LEATHER

By Al Stohlman

An outstanding book on both floral and figure carving featuring the "dye chart" method of dyeing leather. Secrets never before told. Loaded with new ideas by America's Best Carver. Fully illustrated.

Satisfaction guaranteed \$5.00

But that's not all, for we are pleased to report that Al Stohlman is now a full time member of the Crafttool Staff. This not only assures the craft of a lot more of his interesting doodle pages but one of his first assignments was to star in our new motion picture "How to Carve Leather." This 16 MM color and sound picture will, when completed, be available to all Crafttool dealers. Watch for further details in this column on this super colossal production!!!

And now a word to the wise: Study the step by step figures paying particular attention to the way the figure may be combined with the floral carving. Practice on scrap using the tools shown. After each step place your work next to the illustration and closely compare your work.
