

Digital Downloads

This PDF package has been put together to give you options when it comes to printing. Some PDF file downloads may contain some documents larger than an 8-1/2" x 11" image. Pages and patterns that are larger than 8½x11 have been provided in two formats:

Full Size: If you would like to have a full size print out, take the full size pages to your local print shop and they can print it for you.

Tiled: The tiled pages give you the option of printing the larger patterns at home. You print the tiled pages and then assemble them to make the larger patterns.

Pattern PDF files are typically laid out as follows: Cover (if applicable), instructions sheets (if applicable), pattern 1 – full sized, pattern 1 – tiled, pattern 2 – full sized, pattern 2 – tiled, pattern 3 – full sized, pattern 3 – tiled. ...Etc.

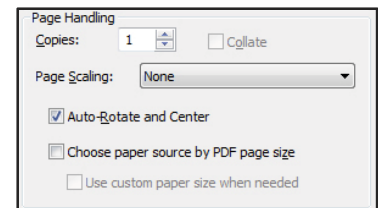

Doodle Page PDF files are typically laid out as follows: Front – full sized, front – tiled, back – full sized, back – tiled (Some Doodle Pages do not have backs).

eBook PDF files contain 1 (one) full eBook. All pages in the PDF are full sized. This means that you may have to take the PDF to a print shop for certain oversized books if your home printer cannot print the larger pages.

Craftaid PDF files contain 1 (one) full Craftaid pattern or Craftaid pattern pack that has been converted into a tracing pattern. All pages in the PDF are full sized. This means that you may have to take the PDF to a print shop for certain oversized Craftaid patterns if your home printer cannot print the larger pages. **NOTE: These digitized patterns do not include any of the physical plastic templates (Craftaids) that may be mentioned, nor does the purchase of this PDF file imply a promise to receive any physical plastic templates (Craftaids).**

NOTE: Digital kit patterns do not include any kit parts that they may reference.

Please note: When printing on a home printer, use the settings seen on the image to the right in the Page Handling area of the Adobe Reader print dialogue box. If your printer is cutting edges off, set "Page Scaling" to "Shrink to Printable Area". This will, however, decrease the size of the pattern a very small amount.

NOTE: Some patterns may reference tools, and other items no longer available.

NOTE: You may take this PDF file to your local print shop to have the full-size pages printed for your own personal use.

Christmas Crafts from Tandy Leather

Pepper Wreath

You will need:

Red Suede Remnants #9520
 4 1/2 yds. Green Suede Lace #5013
 Leather Weld #2015
 Super Shears #1591
 24 White Pony Beads #1427
 6 Conchos #3233 or #1347

Step 1: Transfer paper patterns to paper and cut out patterns. Lay patterns on suede and trace around them, making the proper number of each size. Cut out the peppers.

Step 2: Arrange the peppers as shown (ill. A). Begin with the two large peppers at the bottom. Glue the peppers together as you go, building one on top of the other and working around to the top of the wreath. Be careful to put your glue only where it won't show.

Step 3: Take 3 yards of lace and make a bow about 8" wide. Cut the remaining lace into 12" pieces. Fold 3 of the 12" pieces in half and place the halfway point at the center of the bow (ill. B).

Step 4: Take another piece of lace and wrap it several times around the center of the bow and glue down on the back (ill. C). Trim off excess lace.

Step 5: Put 2 beads, a concho and 2 beads on each of the 6 strands of lace hanging from the bow (ill. C).

Step 6: Glue the bow in place on the top of the wreath (ill A).
