Step 1. Transfer patterns to 4/5 oz. vegetable tanned leather. Cut 4 pieces each of the 4 curved parts and one of the round bottom part. Punch rivet holes with a 1/8" round drive punch. Finish all parts with the color of your choice. Position the #1 size pieces around the base, grain size up, lacing each piece over the end of the preceding piece. Rivet through 3 layers of leather (2 ends and the base) as shown.

Step 2. Position the #2 size pieces around the #1 size pieces with ends lapped as before and rivet holes aligned with the rivet holes in the middle of the #1 size pieces. Position the #3 and #4 size pieces in the same manner and rivet to the preceding circle of pieces.

Step 3. Thread latigo lace through holes in the middle of #4 size pieces, knotting on the outside. The four top ends of the lace can then be tied into an overhand knot to create a hanger
