

Doodle Page Digital Download

This PDF file contains 1 (one) Doodle Page. The PDF has been put together to give you options when it comes to printing. Pages and patterns that are larger than 8½x11 have been provided in two formats:

1) Full Size

If you would like to have a full size print out, take the full size pages to your local print shop and they can print it for you. All full size Doodle Pages are 11x17

2) Tiled

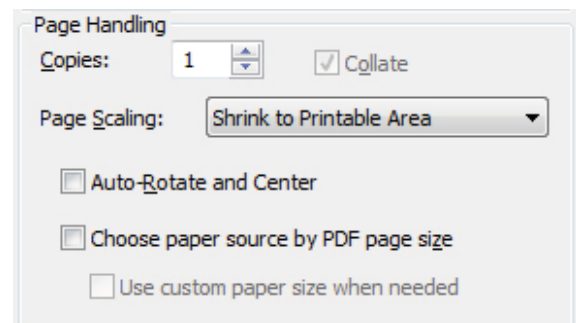

The tiled pages give you the option of printing the full sized Doodle Pages at home. You print the tiled pages and then assemble them to make the larger patterns.

The Doodle Page PDF files are typically laid out like this:

Front – full sized, front – tiled, back – full sized, back – tiled

(Some Doodle Pages do not have backs)

Please note: When printing on a home printer, the edges may get cut off. To avoid this, make sure “Page Scaling” is set to “Shrink to Printable Area” in the Adobe Reader print dialogue box. This will decrease the size of the Doodle Page a very small amount.

You may take this PDF file to your local print shop to have the full-size pages printed for your own personal use.

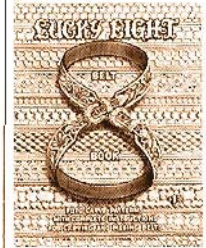

HOW TO USE THE UNDERCUT BEVELERS

By Al Stohlman

Uses for the Undercut Bevelers are almost unlimited! One or two of them, at least, should be in every leather craftsman's kit of tools. Study the photo at left and note the many uses illustrating the versatility of the Undercut Beveler. Note the extreme depth achieved—especially in the seed pod of the bud at far left. Compare the two flowers at upper right—don't you agree that you should have an Undercut Beveler?

Study the tools used on the Bud; Leaf; Scroll; Flower . . . they are shown only as suggestions for decoration—use other similar tools of your choice if so desired. To decorate the scroll, start with the Undercut at the center. Stamp the impressions deeply and evenly following the contour of the outer edge. To "spice" up the scroll the Pear Shader #216 was used and the Veiner #821. A lot of fun can be had with scrolls by trying your own variations and practicing on scrap leather.

WHAT'S NEW?
For the newest and most complete book on belts order Lucky 8 Belt Book. Price \$1.50. It answers all the questions and contains over 50 belt designs by 8 of the world's best carvers. Order Lucky 8 with confidence. Satisfaction guaranteed!

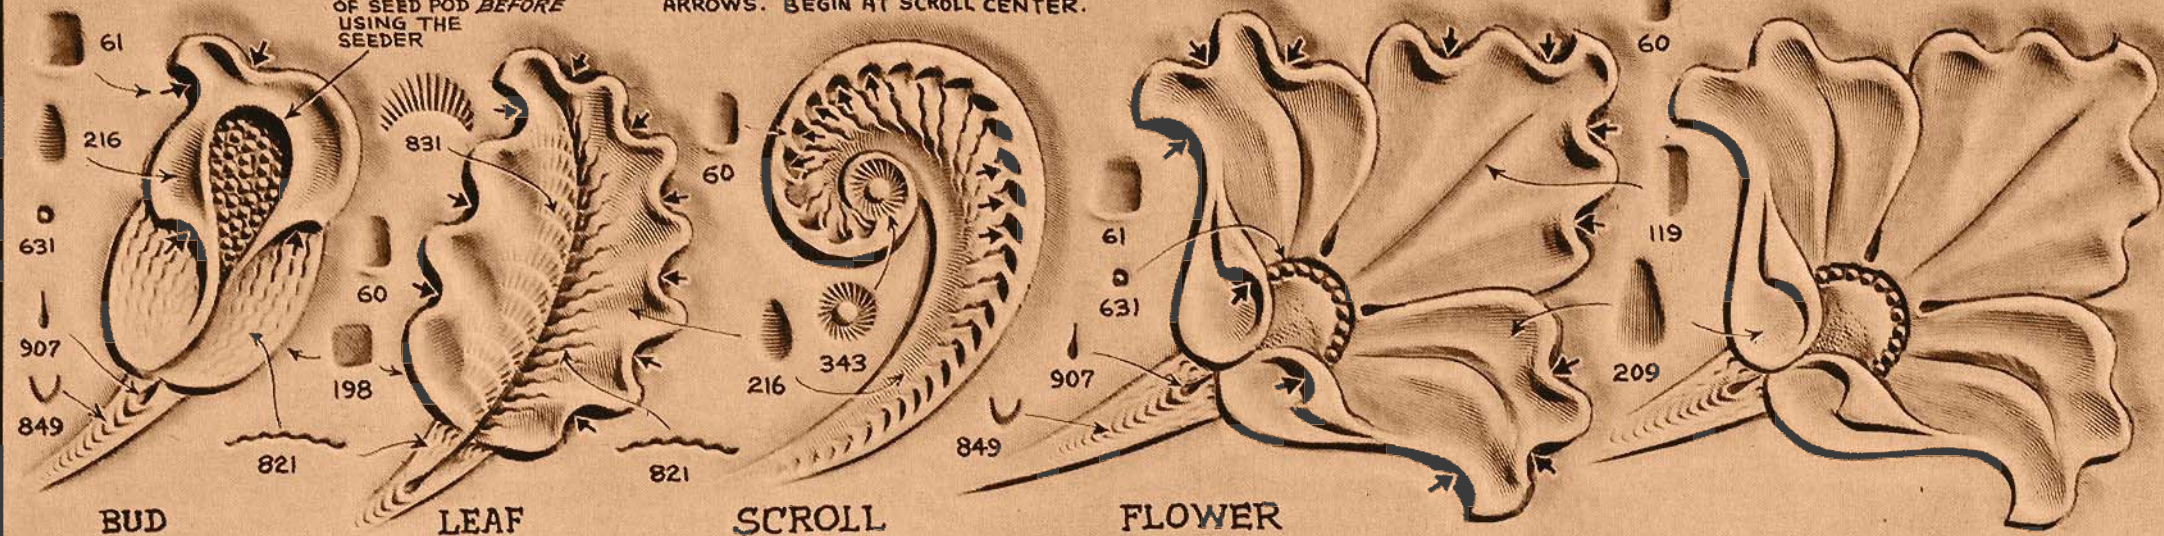

The billfold design has been presented as a bonus and offers a challenge for those interested in the Undercut Bevelers. It is a combination of the parts illustrated above . . . assembled into an attractive, ready-to-carve pattern. For larger billfolds center the design, thus leaving wider borders.

At the bottom of the page, many other uses for the Undercut Bevelers are shown. Don't be afraid to use these tools—get them all and practice on lots of scrap to get the "feel" of using them. Care must be used to prevent cutting completely through the leather . . . this is avoided by tipping the tool backwards as the undercut begins—shown by the illustration at left. The Undercut Beveler is a "must."

The border designs shown are all created with the Crafttool Indian Stamps. See them at your dealer, or write for illustrated tool list of the complete line of Crafttool Saddle Stamps and New Hand Tools. Watch for How to Carve the Rose on next month's doodle page.
