

Doodle Page Digital Download

This PDF file contains 1 (one) Doodle Page. The PDF has been put together to give you options when it comes to printing. Pages and patterns that are larger than 8½x11 have been provided in two formats:

1) Full Size

If you would like to have a full size print out, take the full size pages to your local print shop and they can print it for you. All full size Doodle Pages are 11x17

2) Tiled

The tiled pages give you the option of printing the full sized Doodle Pages at home. You print the tiled pages and then assemble them to make the larger patterns.

The Doodle Page PDF files are typically laid out like this:

Front – full sized, front – tiled, back – full sized, back – tiled

(Some Doodle Pages do not have backs)

Please note: When printing on a home printer, the edges may get cut off. To avoid this, make sure “Page Scaling” is set to “Shrink to Printable Area” in the Adobe Reader print dialogue box. This will decrease the size of the Doodle Page a very small amount.

You may take this PDF file to your local print shop to have the full-size pages printed for your own personal use.

NEW AND DIFFERENT

Pardon us for pointing with pride to Doodle Page 9 the first of many to be carved by Cliff Ketchum, Saddle Maker and master of the swivel knife. His use of the new Crafttools will no doubt prove both interesting and useful to the craft, but most important is that his floral designs are **new** and **different**.

It is our opinion that this outstanding artistic work will find a warm welcome and Cliff's one inch belt design is not only easy to do but has plenty of eye appeal. Note the use of the undercut beveler used to form the scalloped petals of the flower (as shown in the upper right corner). Notice the use of the tiny pear shader #233 and the tiny veinners #462 and 463. Let your eyes follow the arrows as they point out the uses of the various tools; each a lesson in itself!

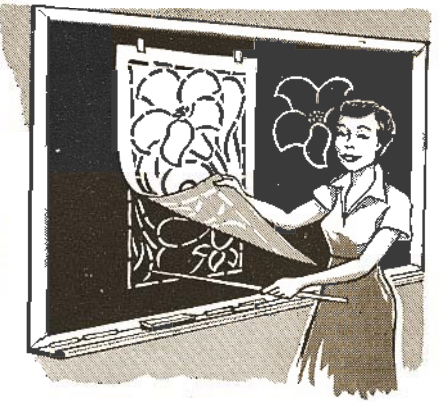

Study the larger version of the Morning Glory and the different treatment of the scrolls and leaves. The flower at the left shows the use of Crafttool #467 to form the edges of the petals. Note the proper use of the new beveler #119, a double bevel all in one operation.

Learn to doodle by trying the fancy swivel knife work as shown in lower left hand corner.

ATTENTION CRAFT TEACHERS

To assist in teaching the use of the Basic Tools, we have prepared three easy to use Floral Stencils, size 25" x 35", for use on the Blackboard. Remember, one picture is worth a thousand words! ORDER YOURS NOW.
