

## Doodle Page Digital Download

This PDF file contains 1 (one) Doodle Page. The PDF has been put together to give you options when it comes to printing. Pages and patterns that are larger than 8½x11 have been provided in two formats:

### 1) Full Size

If you would like to have a full size print out, take the full size pages to your local print shop and they can print it for you. All full size Doodle Pages are 11x17

### 2) Tiled

The tiled pages give you the option of printing the full sized Doodle Pages at home. You print the tiled pages and then assemble them to make the larger patterns.

The Doodle Page PDF files are typically laid out like this:

Front – full sized, front – tiled, back – full sized, back – tiled

(Some Doodle Pages do not have backs)

Please note: When printing on a home printer, the edges may get cut off. To avoid this, make sure “Page Scaling” is set to “Shrink to Printable Area” in the Adobe Reader print dialogue box. This will decrease the size of the Doodle Page a very small amount.

You may take this PDF file to your local print shop to have the full-size pages printed for your own personal use.

**"NEW ARRIVALS" TO CRAFTOOL'S  
GREAT FAMILY OF LEATHER STAMPS**

These great new stamps give you a fresh look at easy, clean, and interesting designs for your leather projects. Mix 'em in with your other Craftool stamps and the "Sky's the Limit" on patterns you can come up with.

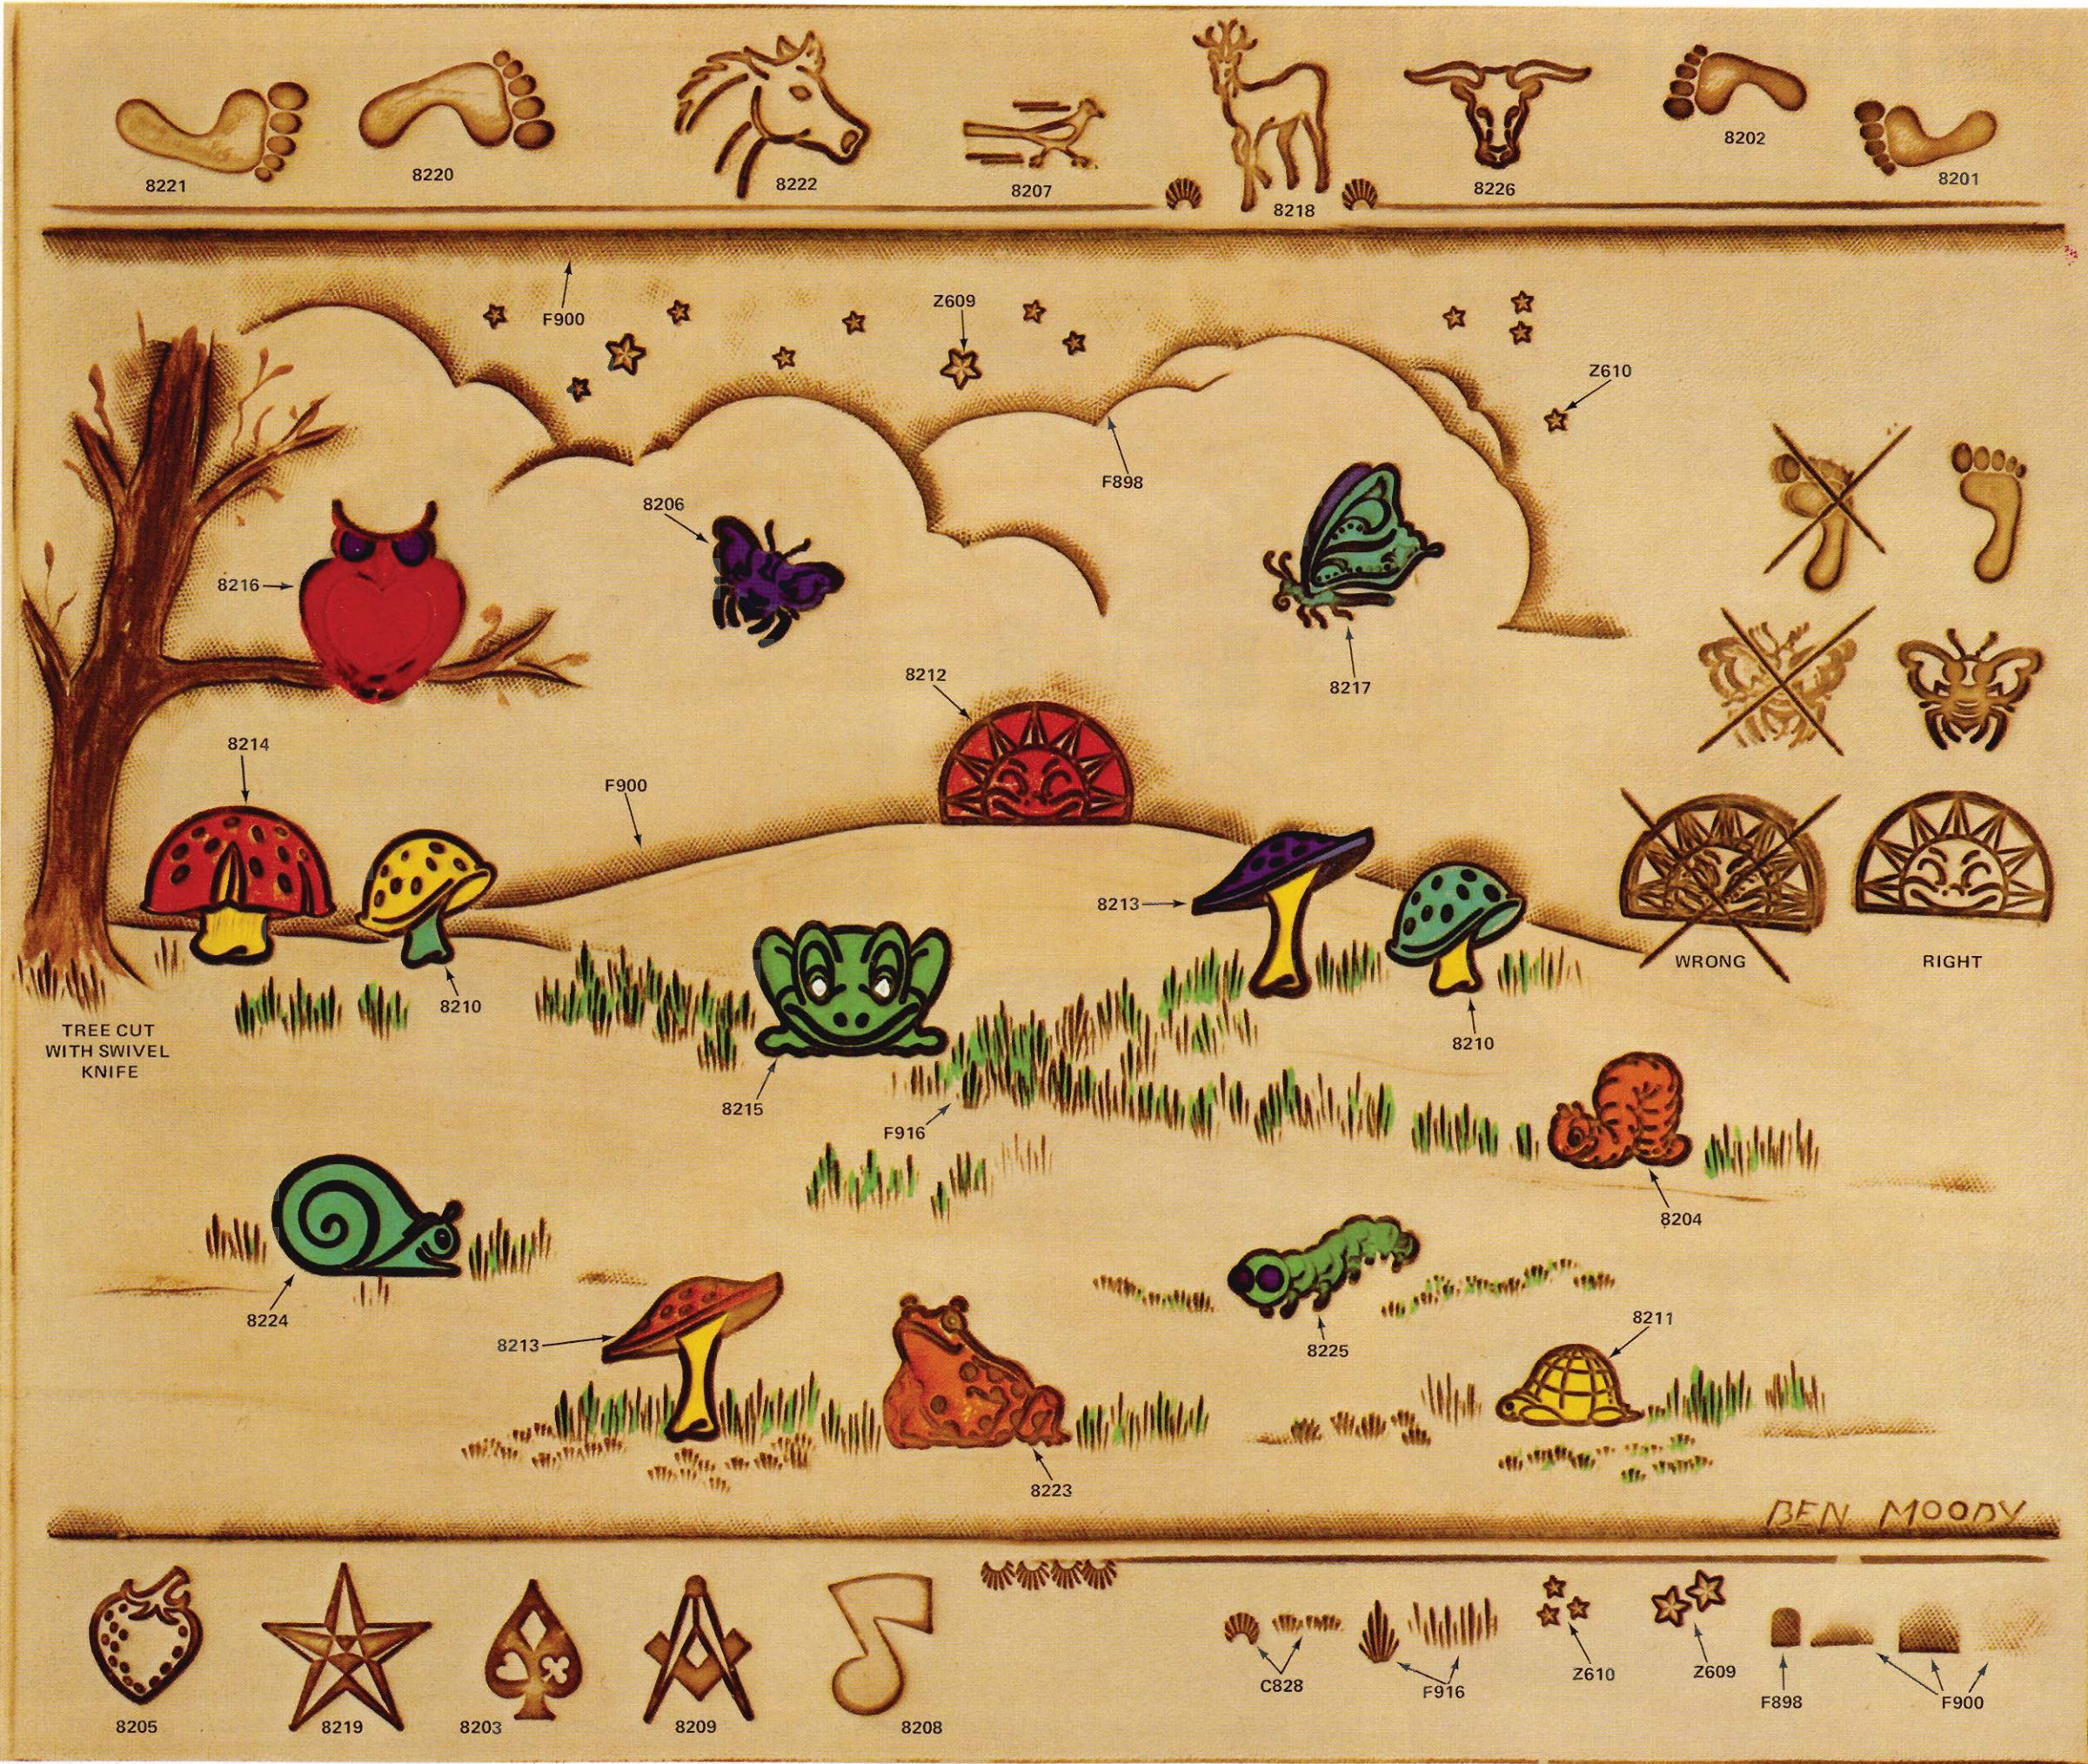

A few tips . . . These new stamps are large . . . you need to wet your leather, wrap it, and let it case awhile. This will soften the fibres better and you can make cleaner impressions on it.

Place your stamp where you want it, grasp the handle firmly and slide your fingers down the handle 2/3". PRESS DOWN and hit the first lick hard enough to get a clean imprint. One lick won't generally do the trick. It will take several on most of these stamps; so VERY CAREFULLY re-set the stamp into the impression made with the first lick and hit it again. Continue this routine until the impression is as deep as you want it. I suggest you practice on scrap leather until you've got the idea.

Neat Dye or Cova Dye will color your projects nicely. "Leather Glow" will emphasize the sharpness of the lines. Neat Shene will give you a nice finish.

Always remember the thickness of your leather determines how deep you can stamp and smaller stamps will penetrate deeper than large ones. BE CAREFUL.
